History: This message has been replied to.

Ms. Cash,

I talked to our clerk last evening. A check was written on Jan 10, 2005 to Warren White for \$690.00 with zero backup information. On April 12, 2005 another check was written to Warren White for \$315.00, she has a bill for this. No work or other action took place in 2005.

No work has or has not been completed and there is no Laurelville match problem. The Village has nothing else on this item, no file- nothing. This information is to the best of our clerks and my knowledge.

Hold on! We cannot close the grant yet because the project is not completed. We need to get answers to the questions posed in my e-mail before we can do anything. Sharon Green sends out the forms to every grantee whose grant is about to expire.
